**The Thinning of the Veil  
New Year's Transmission**

Mes amours, c'est merveilleux. It's a blessed moment. It's a blessed cosmic moment. The work during these days, during this night, so intense, that the residence is becoming a sun shining from everywhere, beams of light coming in and out. A dance, a dance of light. A dance of different cosmic attributes. It's amazing for me to observe since 4:00 PM today how the veil started being so active in a very unique way, in a way that I've never experienced before.

Such as a movement in a deep water with a unique sound, as if you're diving and you're going so, so deep that nothing exists but that movement and a sound that's coming from everywhere at the same time.

Everything is being orchestrated, created for each one of you at this very moment. Soon it will be midnight and the veil is thinning, thinning, thinning constantly, which means that the portal is going to be available for each and every one in a moment that there'll be no veil at all. At all. And this is when the new human as you, in your magnificence, exist in both worlds within and this world, as well as beyond the veil. Because there'll be no veil. Source and here will be exactly same, with a multitude of dimension, different dimensions. Some of you may be aware already, some of you may not. The cosmic Shakti as Adi Para Shakti, is showering this universe and this planet for each one to remember.

You are source itself. You are divinity itself. The cosmic Shakti has been building up at an accelerated pace for the evolution of this planet with all its living things at this very moment some may experience an inner state of bliss, of joy with no reason. Some may be in a strange or weird space. It's all about the veil. The veil in your DNA is thinning so rapidly that many of you may feel like the flow is moving, that your room is moving, the wall is breathing.

Similar like on a sailboat. Some may feel cold, some may feel whole or dizzy. Not to be concerned at all. Even if your heartbeat is changing rhythm. Not to be concerned. This is a natural energy that's happening. It's all okay. It's all okay.

These few hours, the portal will suddenly open actively for a few moments, then back to its normal state, which will then be active for several days, several nights, probably three to five it will gradually change from this huge opening of nothingness, fullness. For you to be who you are.

How amazing is this? I can only be grateful to you. Thankful to you. Thank you for being on the planet for this global evolution. Thank you for being a pillar of the grand design. Thank you for your trips to India, to the Kumbh. Thank you for Egypt. Thank you for the work of Maria Magdalena. Thank you for knowing that Master is with you, serving you. Thank you for who you are at this very moment. This evolution has never been experienced on this planet as tonight. No other New Year's Eve work has ever been so magical. This vibrancy, pulsating, buzzing like bubbles of light everywhere at the evolution level that I have personally not seen, not only in this life experience, but in the few others that I've been in the Ascension work.

Two frequencies are very active right now at the exact same instant in the DNA. In your DNA. Yes. A blessed cosmic source moment as you for you and will never ever, ever leave you. Feeling complete, feeling whole, feeling exactly who you are. I honor you. I honor you in this integrity of you. Where is the acceptance, Yes, I am a being of light. I'm a being of Source. I'm a quantum being. I am a love being.

In the greater consciousness, you are being prepared for this cosmic transmission tonight, today, this moment before midnight and a few after midnight and active transmission, activating your divine DNA. Your soul highest evolution to be of service to you, to be an embodiment of all that is Tat Twam Asai. Your inner knowing will be enhanced, will be revealed to you. Knowing you can easily cross the veil.

You are not a bridge anymore. You are that. I AM That I AM, between Earth and Source through all dimensions, with different attributes of consciousness, bathing in the magnificence of wholeness, of uniqueness, of fullness, of nothingness, of all that is. Your creativity is being boosted with rapid growth. Thus that superb energy of evolution of planetary system is being active with a spiritual awareness, a spiritual awakening where spirit is part of your everyday life and more.

The linear time for these moments coming will dissolve completely with the new activation of your quantum leap consciousness. You've been so devoted and dedicated to the path, together with me. Experiencing the full shakti of the multiverse. That you are and that you breathe exists the multidimensional You exist whole in its totality. The one who consciously align one's frequency with the I am presence. Will breathe, will taste, will experience, will see, will feel, will be that beingness, knowing Source, God, consciousness for a moment in time, for a moment beyond time.

How magnificent the magnificence of you. I am in awe at the becoming of you. For you to walk, to breathe for a moment, the embodiment of your presence is magical. It's a unique moment of God embodying you, Self embodying you, self-realization effortlessly. Imagine your potentiality is active in its totality, in its full potentiality, in this blessed cosmic source instant. Feeling so full, so complete.

Your Antakarana will be open for a nano moment and you will know what it is to be beyond space and time as Shiv, Shiv, as Shiv, this being of light who came on this planet to say, you are not only that physical body. You are not your thoughts, you are not your mind. You are not your feelings. You are being of light. Just like me.

Oh this moment when you Antakarana open. Enjoy it. Enjoy the vastness of you, intertwining with the vastness of source itself. And in your heartbeat there's an enhancement happening as your magnetic field is being imbued,

impregnated with higher, higher frequency. So you can merge with all that is. pour necesse moment Vote Lumiere. Vote conscience. Votret l' amour que vous ete dans a splendor.

That I am. This is you. At the same moment, your body will be upgraded as well. Evolution. Revolution. Spirit. Spirit coming to embody you.

The Great Spirit, the Great Intelligence, will use the thinning of the veil to serve you. To serve humanity to its fullest. This is planetary. Awareness. Heighten awareness. Heighten. Awakening. Enlightenment. Ascension Consciousness. Ascension of matter. Where the planet becomes, with this higher frequency, a diseaseless planet, an ageless form filled with light. And when it's time for you to leave this planet, all the cells of the body, with the strength of the mitochondria, your cell burst into light and you pierce the ceiling.

And you go wherever you wish to go. In the Milky Way, in the Cosmos. Use your breath, my beloved. Use your breath. Use movement. Allow the star seed that you are. The star being that you are. The galactic being that you are. Welcome. Your galactic family. Your star family. You are a creator. You are a creator in integration now. New frequency active in the new cosmic energy pulsating in your DNA, in your system, where all fear disappear for a moment. There's neither past nor future. The human, the humanness in its consciousness, disappear so that you can enjoy the beauty, the magnificence of your humanness. Merging with all that you are. Grace. Light. In the greatness of you. In the joy of you. In the honor of you. Om Jai Jai Sai Maa
